

Lesson 3. Parts of a Plant

Grades PK-2nd

Materials

- Lesson 3. Parts of a Plant Video Lesson

Objectives

- Students will learn about the 6 parts of a plant: roots, stem, leaves, flowers, fruits, and seeds.
- Students will practice pronunciation of common fruits and vegetables.
- Students will practice identifying the color of common fruits and vegetables.
- Students will practice counting.

Vocabulary Words and Terms

- Roots
- Stems
- Leaves
- Flowers
- Fruit
- Seeds
- Photosynthesis

Instructions

- Play the "Lesson 3. Parts of the Plant" Video Lesson
- There are opportunities for students to pronounce different fruits and vegetables in the video.
- There are also opportunities for students to name the color of a certain fruit or vegetable.
- During the seeds section, students will have the opportunity to practice counting the seeds on the screen.
- OPTIONAL ACTIVITIES
 - Have students share a recent meal where they ate vegetables. Allow the students to figure out what part of the plant the vegetable came from.
 - Have students draw a plant with all the different parts.
